

- Ductile Iron
- EN124 Class F (900kN)
- AS3996 Class G
- Ventilated and non-ventilated options
- Unhinged
- Elastomer ring
- Push-in central pad
- Sealed handling box
- Designed for heavy duty loading situations e.g. airports.

Reference	Description		Mass (in kg)		Dimensions mm		
	Type	Frame	Total	Cover	Clear Opening	Height	Frame Size (OD)
			CFUR60AF	Non-ventilated			
CFUR60BF	Ventilated	Round	88	61.5	600	100	850

STRENGTH

URBAMAX, class F 900, has a high tensile strength

STABILITY

The weight of the cover (63 kg in the non-ventilated version) and the addition of an elastomer ring and a double skirt dampens vibrations caused by traffic, ensuring total stability.

OPERATION

A handling box allows URBAMAX to be handled with traditional site tools : such as a pointed or flat end pick-axe, or crowbar. The cover is specially designed to ease closing.
